Ongoing Website Maintenance

£65.00* per hour

All of our Wix Studio packages include a recorded 1:1 30-minute zoom training session. The training session will provide you with everything you need to know to be able to edit and manage the website yourself.

However, if you would like us to manage your website updates for you, we can do this at a fee of £65.00* per hour. We will only invoice you for this work once you have reached 2 hours of our time. We will provide you with an indication of how much time each website update will take us prior to commencing the work.

To learn more, please contact us by emailing hello@sokastudio.co.uk or calling the studio on 03300029920 with your personal requirements.

Further Information

Before we begin any work, we will meet with you over a scheduled Zoom or telephone call. In the call we will ask questions to learn about you, discuss your business and what you need to achieve with your new website. It is also a good time for you to ask us any questions you have regarding your website's design and build.

Following the call, a detailed brief for the work will be supplied to you by email. The brief is to be agreed upon in writing before work begins.

Our payment terms are 50% due before work begins with the remaining balance due upon completion. We also offer 6–12 month payment plans to help with affordability, please let us know if you are interested in knowing more about this.

All websites created by The Wix Designers are subject to our standard terms and conditions. You will receive a PDF copy of the terms and conditions by email, before you choose to proceed with working with us.

*All prices shown are inclusive of VAT.

The Wix Designers is a trading name of Soka Studio Limited. Company No. 11202420.
